

Viewer Analytics Report 2016

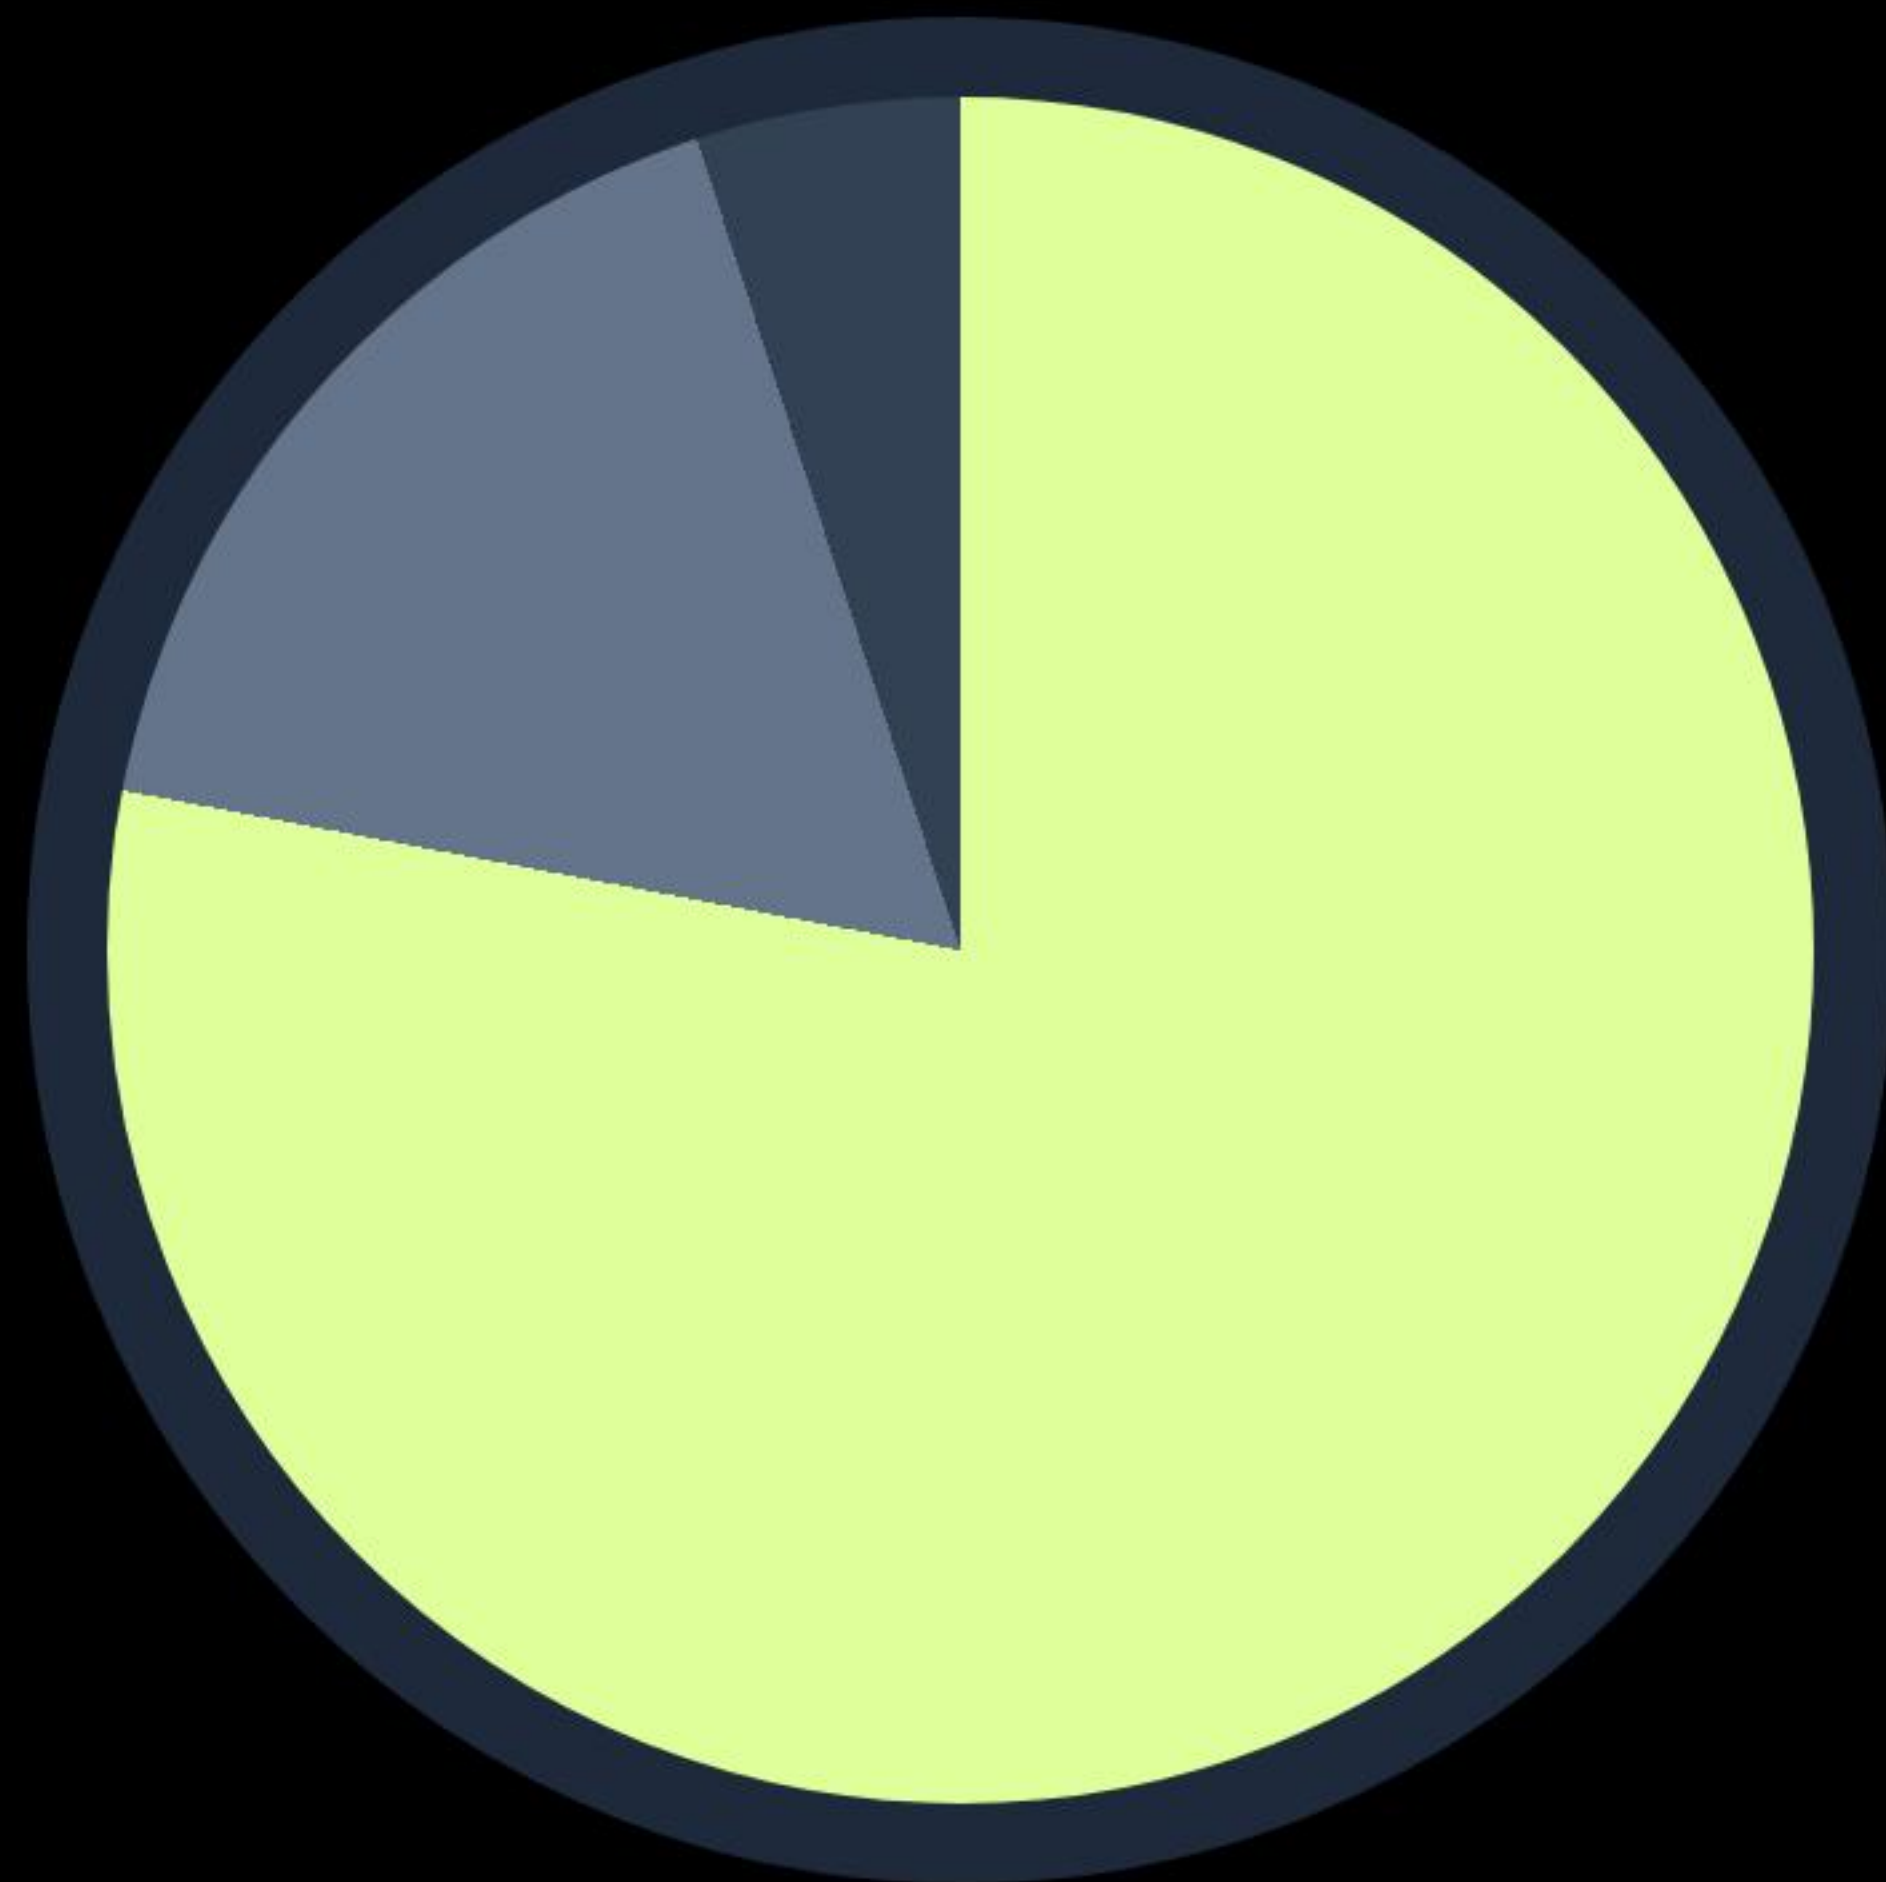

Comprehensive Analysis of South African TV Viewing Habits
based on Consumer Engagement Data.

 Market Intelligence Research

Demographic Profiling

Understanding the core audience segments through gender, race, and age distribution analysis.

Gender & Race Distribution

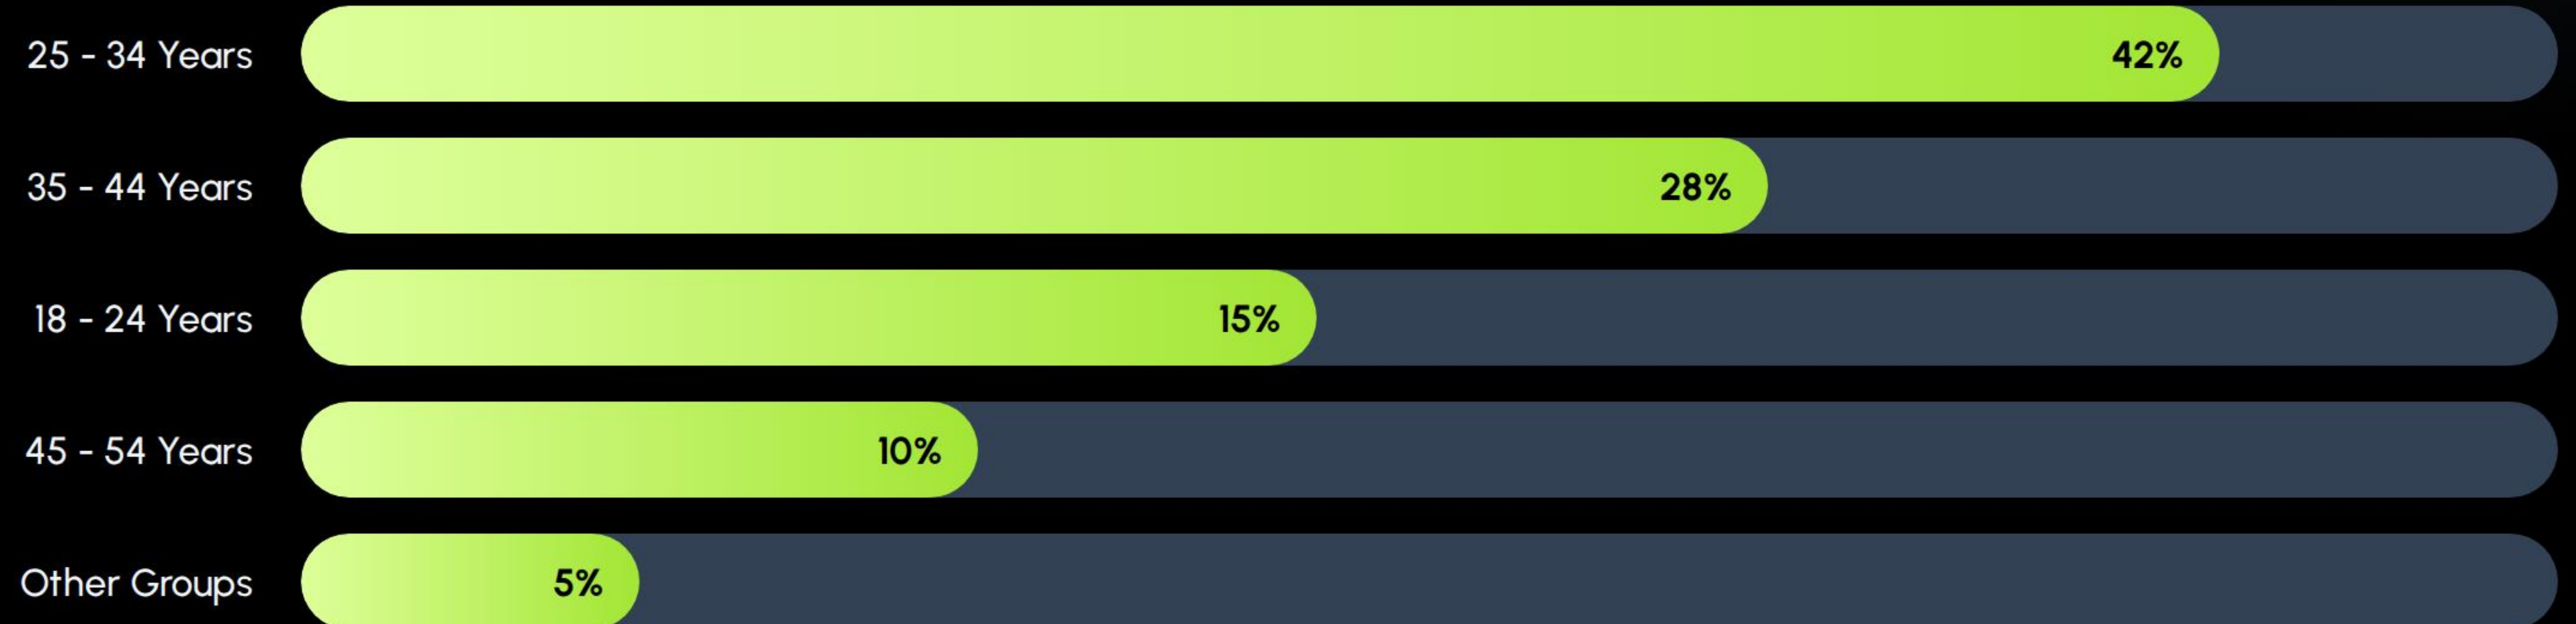

- Male (78%)
- Female (17%)
- Unspecified (5%)

Racial Composition:

- Black, Coloured, White, Indian/Asian

Audience Segmentation by Age

The 25-44 demographic represents the primary consumer engine, accounting for over 70% of total engagement.

Geographical Hubs

Gauteng Lead

The majority of viewing data originates from Gauteng, serving as the primary media consumption hub in South Africa.

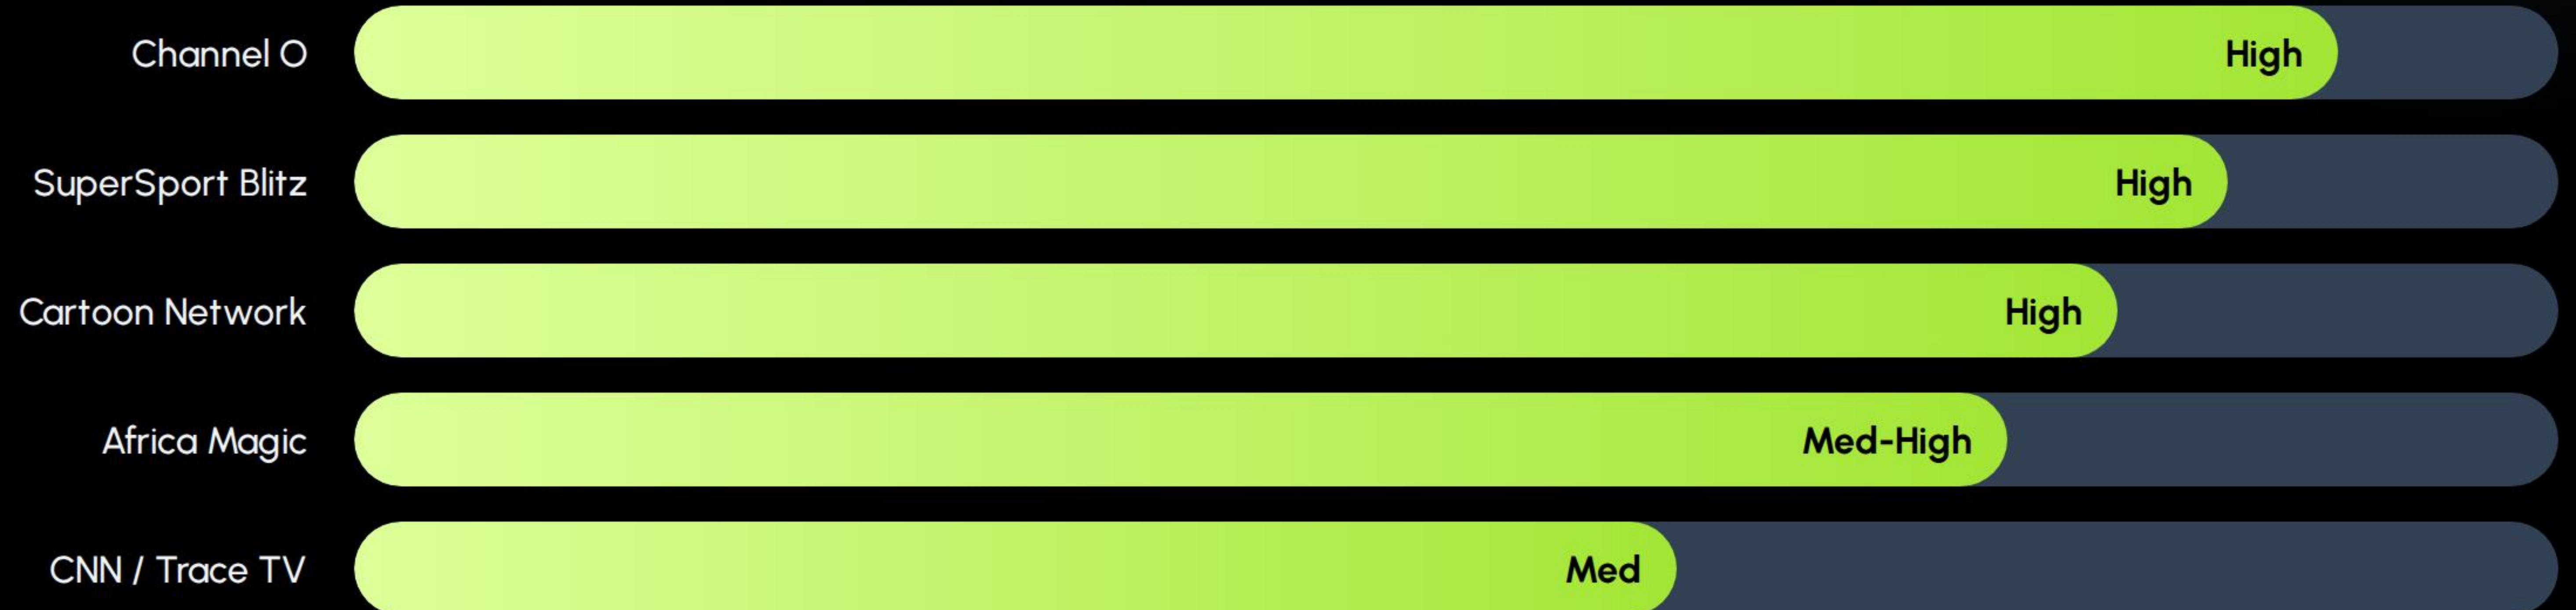

- 📍 **Gauteng:** 45% Viewership Concentration
- 📍 **Western Cape:** Secondary Market Lead
- 📍 **KZN & Mpumalanga:** Emerging Regional Growth

Content & Behavior

Analysis of channel performance, peak viewing hours, and engagement depth.

Top Performing Channels

Entertainment and Sports dominate the content landscape, with youth-oriented channels showing the highest stickiness.

Peak Viewing Time Windows

Morning

Steady news and sports briefing volume between 06:00 and 09:00.

Afternoon

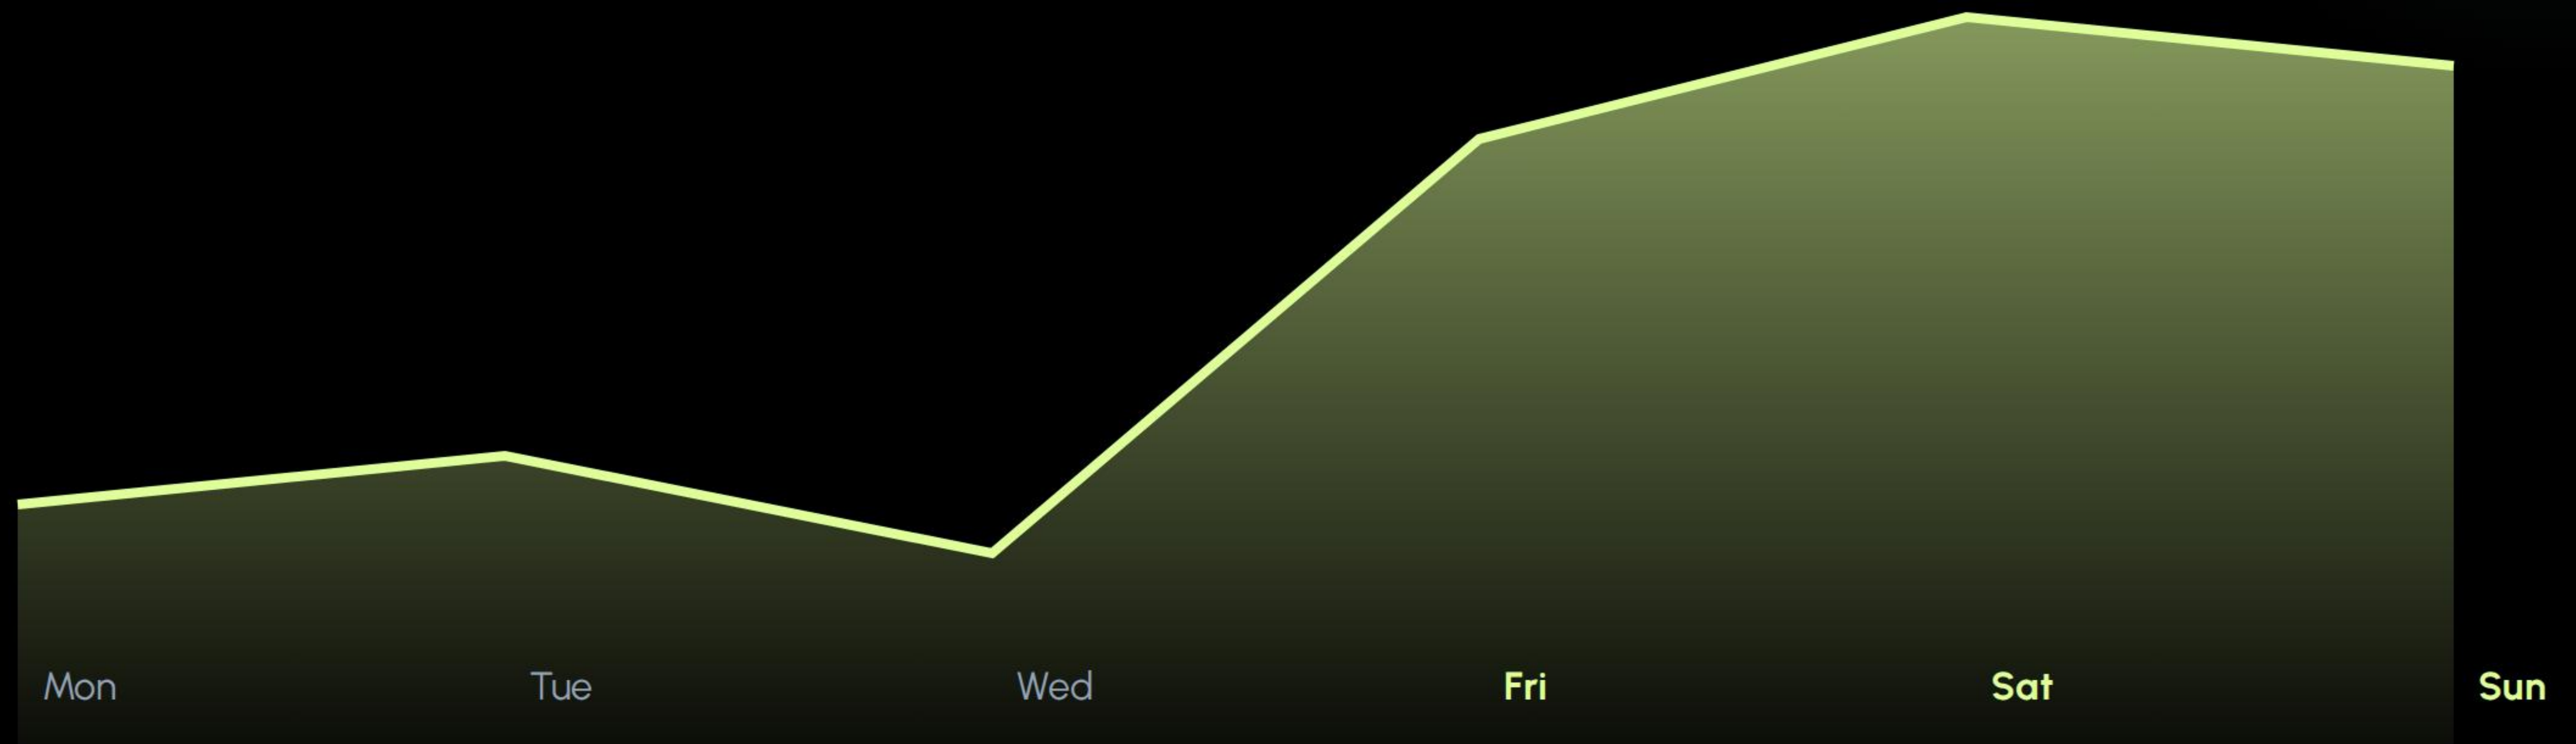

Strong children's and lifestyle content consumption (13:00 - 17:00).

Evening

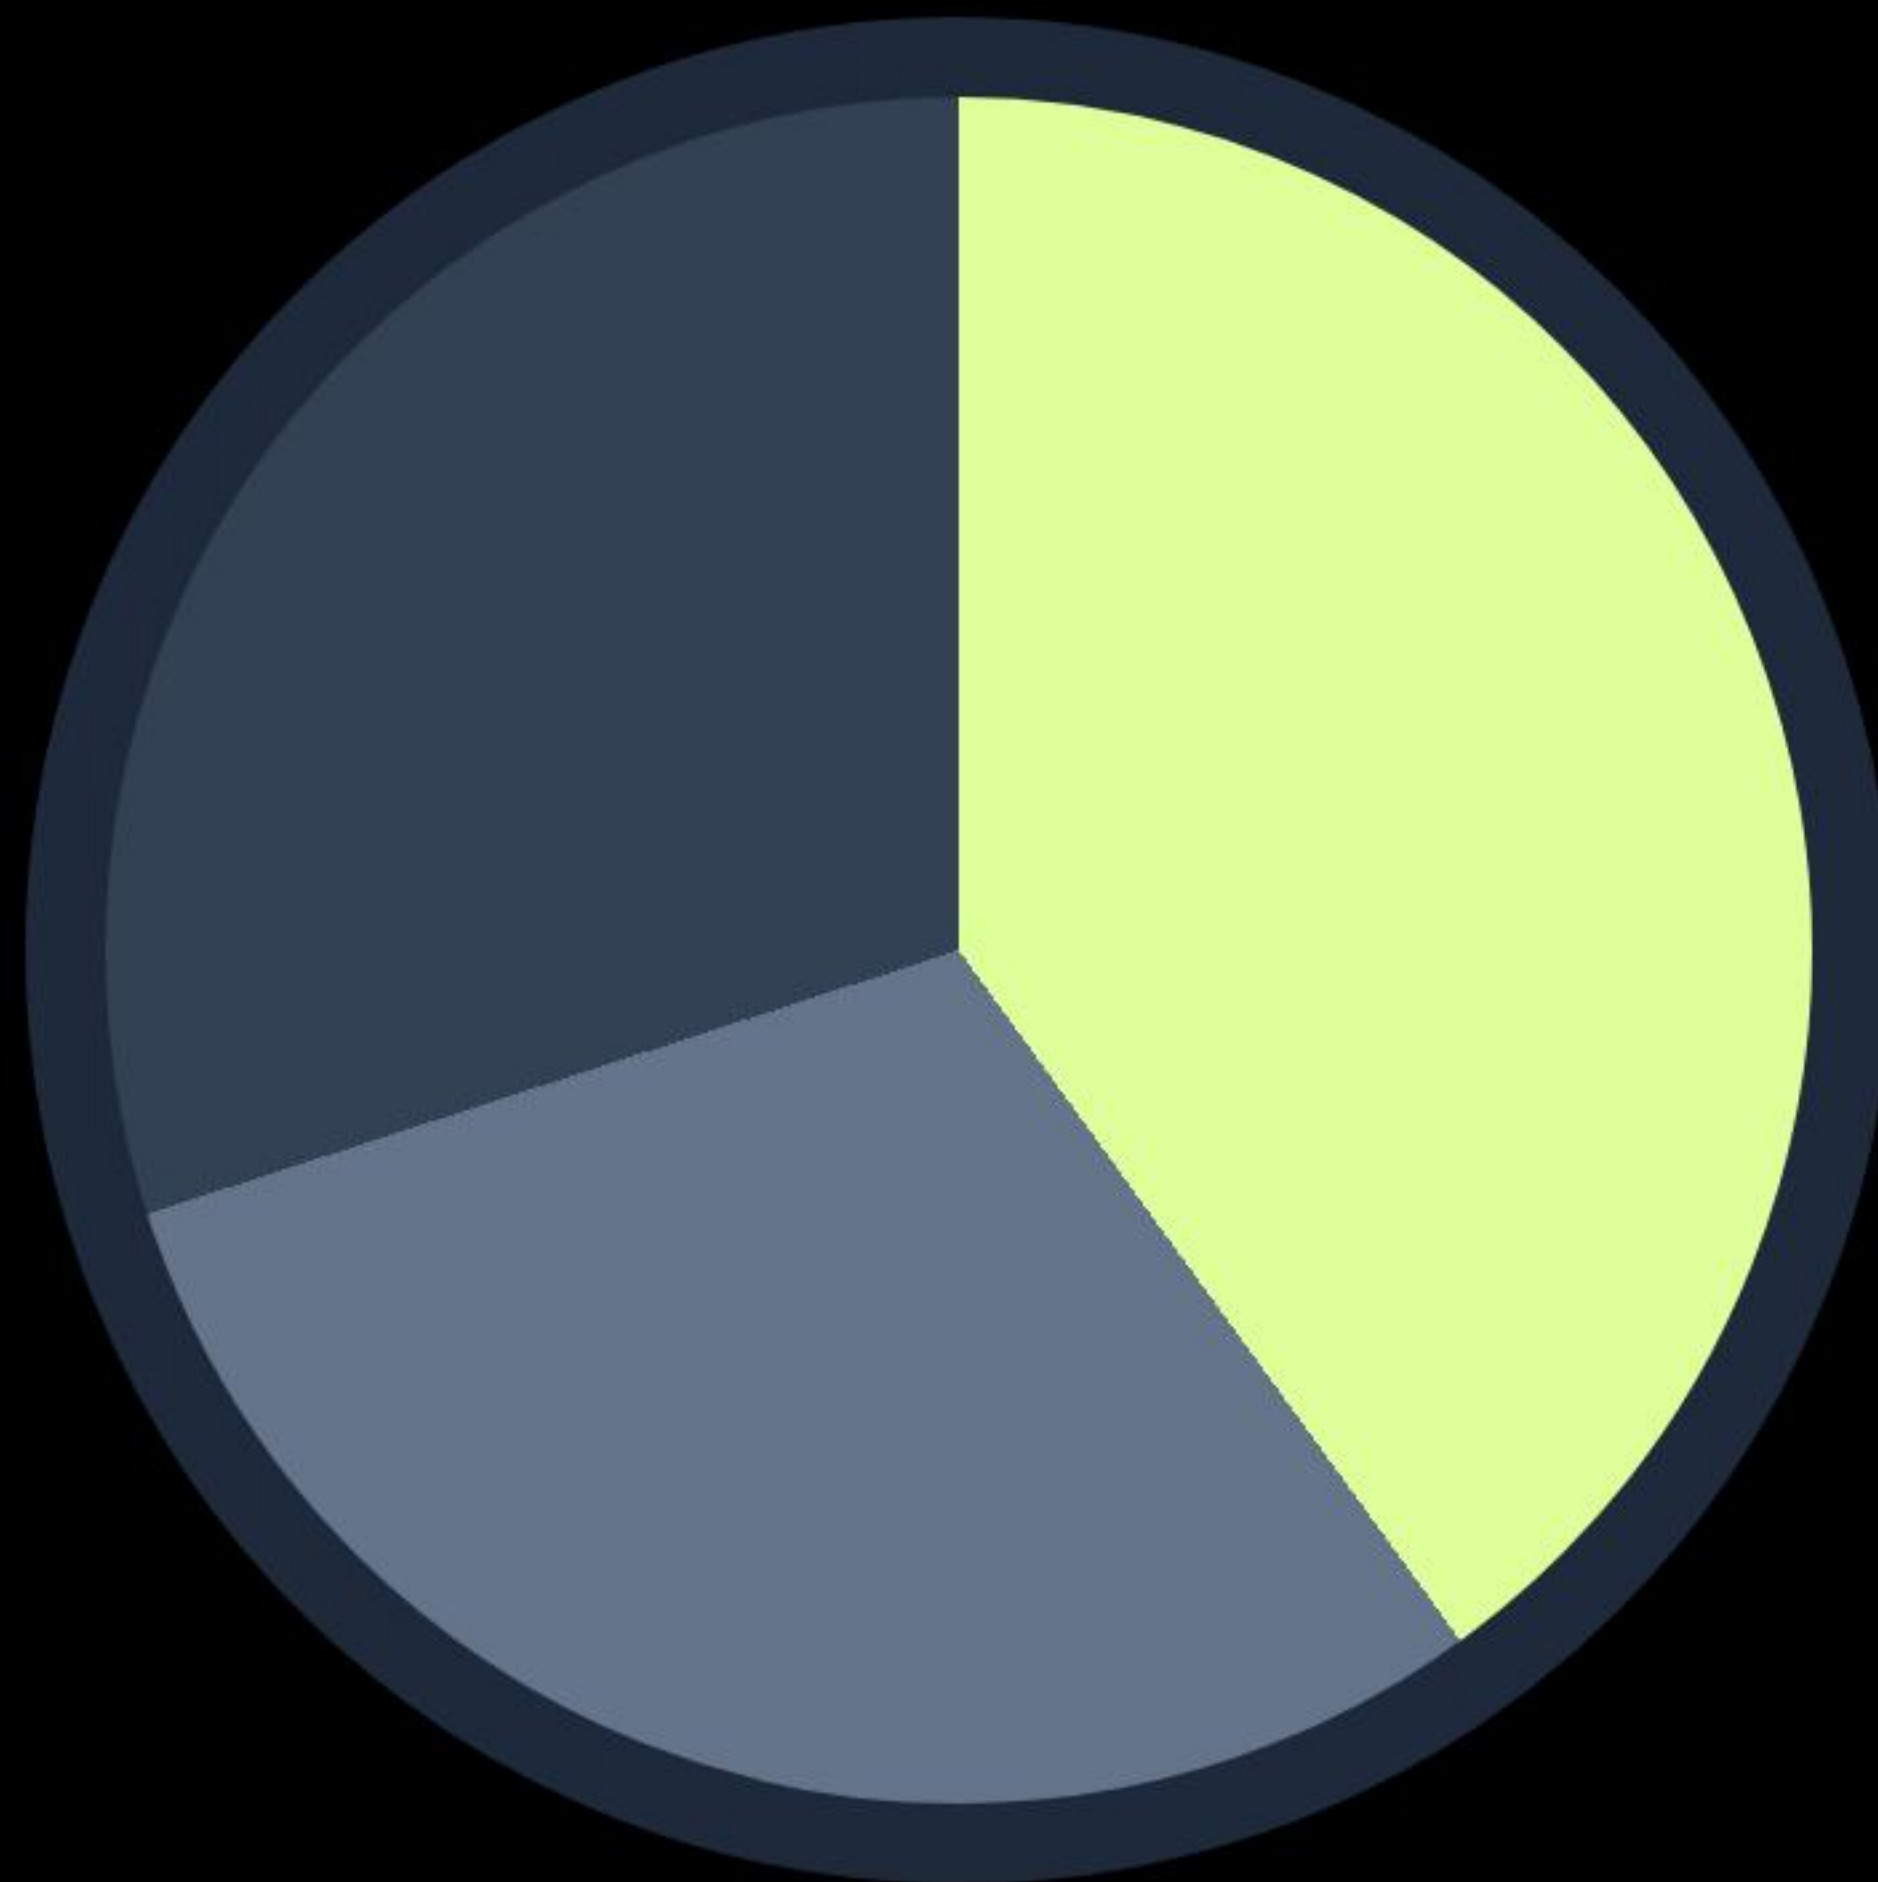

Prime Time peak for movies, series, and live sport (18:00 - 22:00).

Weekly Engagement Trend

Significant viewership ramp-up starting Friday afternoon, peaking on Saturday evenings.

Monthly Consumption Cycle

- Late Month Peaks (40%)
- Mid Month Activity (30%)
- Early Month Engagement (30%)

Strategic Recommendations

- 🎯 **Targeted Advertising:** Focus digital and broadcast ad spend on the 25-34 demographic, particularly during Saturday prime time.
- 📺 **Channel Optimization:** Prioritize high-engagement channels like SuperSport and Channel O for regional Gauteng campaigns.
- 🕒 **Slot Scheduling:** Shift premier movie releases to the 'Late in Month' cycle to capitalize on peak volume trends.
- 🔍 **Duration Improvement:** Implement content bridges to convert "Insignificant Views" into "Minimal" and "Max" view durations.
